DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The reply filed on 8/23/2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

The specification is still objected to as page 7 is missing. The specification includes page 6 followed by a duplicate of page 15 (that is also present following page 14 and preceding page 16 in its correct order), followed by page 8. It is assumed that this page contains information concerning the summary of the invention section as well as the description of Figure 1. As the information contained on this missing page is crucial to the disclosure of the invention, appropriate correction is required. However, Applicant is advised that amendment to the specification cannot introduce subject matter not described in the originally filed specification as it would be considered new matter.

Response to Applicant:

While applicant asserted on page 5 of their response received 8/23/2004, that the missing page 7 had been attached to their response as an appendix, the examiner can find no such appendix in their response. The examiner also placed a call to applicant's representative, Laura Zeman to inquire about the missing page on 10/28/2004, her call had not been returned as of the completion of this action. The objection to the specification is maintained and as a result applicant's amendment is considered non-responsive as the missing information is required for examination and was not provided in the amendment.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sally A Sakelaris whose telephone number is 571-272-0748. The examiner can normally be reached on M-Fri, 9-6:30 1st Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Jones can be reached on 571-272-0745. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
